Washington Glass Association 2014 Scholarship Awards

(L) Rebecca Rogstad, First Place WGA Scholarship Winner
(R) Bill Coady, Guardian, WGA President

On June 26, 2014, the Washington Glass Association met at the Embassy Suites, Tukwila, Washington. WGA President, Bill Coady, Guardian Industries Corp. awarded three Washington Glass Association Scholarships.

The \$1,500 First Place Scholarship went to Rebecca Rogstad, Member Company, Window Tech., Inc. The \$1,000 Second Place Scholarship Award went to Kristina Heiss, Member Company, Northwestern Industries.

Our \$500 Third Place Award was a surprise! NGA's GlassBuild America September 9-11, 2014 contacted the WGA and wanted to sponsor a Third Place Scholarship Award.

Our non-industry related scholarship judge chooses an alternate, just in case. Good thing, as this year we were able to fund a Third Place Scholarship Award winner unexpectedly, thanks to NGA's GlassBuild America 2014. The winner went to Emily Anderson, Member Company, Atlas Supply, Inc.

Also, thank you to Greg Barnhart, Pacific Glass & Door for serving as our 2014 Scholarship Chair. And, a special thank you to Kathryn Held, Tacoma Community College for judging the scholarship applications.

Q:

Can a fire-rated ceramic glass have the same qualities as float glass?

THE ANSWER'S IN THE GLASS.

New Keralite® Select has such true color, you might not know it's fire-rated glass ceramic. Our advanced composition, combined with patent-pending surface polishing technology, results in a 97.1 color rendering index, for the highest R96a value in its class. With superior clarity, high VLT, and the lowest haze value available, Keralite Select is worth a closer look.

Washington WGA/MBA Health
WGA Insurance Corner
 Glass Association on Networks

Contributed by MBA Health Trust
 Administrators Capital Benefit Services

As it becomes more and more vital for individuals to take ownership of their own insurance plans, understanding your insurance provider network is a critical component. A provider network is a list of health care providers and facilities (doctors, hospitals, etc.) that are contracted to work with your health insurance carrier. Providers on this list are considered “in-network”, while those not on the list are “out-of-network”.

When a certain provider is contracted with a provider network, this means they will provide services at a certain price, agreed upon between them and the plan carrier. While most plans allow you to see providers regardless of their association with the contracted network, there are often significantly higher out-of-pocket costs for services received outside of the network compared to inside the network.

So if you know that out-of-network benefits may cost you more, what can you do about it? A great place to start is searching the provider network online. Regence BlueShield has an excellent online tool to help you find a doctor in your area or to check if your current doctor is in their provider network. Check it out at www.regence.com/find-a-doctor.
